# AgilAire – AirVision™ Update

When Might We See A Product?

- Was scheduled for last Fall 2007 then postponed to July / August 2008
- Now Scheduled September/October 2008
- Reason for Delays – Many Reason but More Recently Internal Programmers
- Should Have Issues Resolved with New Personnel

What can we expect?

- Parent / Child relationships between parameters.
- File attachments for annotations.
- Web Site tools include XML import/export transfers.
- Web Site real time display and historical reporting.
- Data/Configuration translators for legacy data.
- Four Levels of Flags (logger, Central, user, numeric).
- Direct Drivers for ESC 8816 & 8832 data loggers.
- Direct Driver for Met One BAM.
- Other Direct Drivers Will Be Developed Later.
- Working with ESC to upgrade firmware to rid the need for the "dongle".

What's It Going To Cost?
