

NTAQS

Air Quality, Planning, and NEPA

August 24, 2010

Moderator's Notes

# Air Quality in Planning

# Air Quality and Emissions in planning

- Sustainability
- Livability
- Conformity
- GHG
- Public Involvement
- Streamlining – Mitigation, Interagency Coordination (6001), and PM Hotspot Guidance and PEL (supported 6002)

# Air Quality in NEPA

*"It will be your job to create major delays."*

THE NEW YORKER, APRIL 18, 2005

# Air Quality In NEPA

- Conformity – Project Level (CO and PM Quantitative Hotspot Analyses)
- MSAT
- GHG
- Health Impacts (>Conformity, PM, and MSAT)

# Planning and Environment (NEPA) Linkages

- Land use (livability & sustainability)
- Demographics
- PEL (and Streamlining from 6002)
- Mitigation (6001)
- GHG, Conformity (PM/CO)

# Challenges

- Streamlining – Every Day Counts

# Challenges

- Hotspot Analysis
- Transition From MOBILE to MOVES

# Challenges

- Health Impacts/Risks

# Challenges

- Accountability and Performance Measures

# We're Here to Help

- Carson Poe – Streamlining & Mitigation (6001)
- Lionel Lucien – MA State Example
- Maria Costantini – Health effects
